

A Web Conference for Nutritional Counseling Training: Specializing in Detoxification and Anti- Aging Programs

There is a great need for caring, intelligent people to coach millions of overweight, run-down and chronically-ill Americans to better health through detoxification and regenerative nutrition programs.

Course objectives include*:

- How to use assessment questionnaires to provide you with the information to customize a nutrition and wellness plan for your clients
- How to get to the root of sub-optimum health conditions by addressing the underlying causative factors of degeneration
- How to evaluate case histories and design diet, supplement, lifestyle modification and detoxification programs

How to develop a nutrition consultation practice: business strategies, marketing principles and an overview of legal issues that can arise for the unlicensed nutritional consultant and how to navigate them

*for course overview go to:
