

Sacred Bath for Detox & Rejuvenation

Exquisite Detox Power

Clay is known world wide for its extraordinary powers for detoxifying heavy metals, chemicals, petroleum, radiation and other impurities from the body. There is no gentler or more enjoyable way to draw these impurities from your body than in a luxurious magnetic **Sacred Bath**.

The **Sacred Bath** ingredients include:

- Sacred Clay (pyrophyllite clay)
- Humic & Fulvic Acids
- Himalayan Salt and
- Ormalite.

Sacred Clay is rich in electrolytes silica and minerals providing it with a strong magnetic attraction for the drawing out of heavy metals, chemicals, petroleum products and radiation.

Humic & Fulvic Acids in combination with **Pyrophyllite Clay** breakdown heavy metals, chemicals, radiation and other toxins, converting them into harmless components or compounds. These are two of Nature's potent transformative agents utilizing natural processes commonly found in good organic soil. It is largely due to the humic and fulvic acids in combination with the rich silica and high electrolyte content of the pyrophyllite that produces the strong magnetic draw of toxins to the surface and their subsequent breakdown.

Himalayan Salt adds additional electrolytes to the water along with additional minerals. Electrolytes provide the ions necessary for the movement of toxins & nutrients into and out of the cell walls. An abundance of electrolytes speeds the removal of heavy metals, chemicals, petroleum byproducts, viruses, bacteria, the reduction of fungus, and numerous other toxins.

Ormalite Clay provides nourishment for the DNA, cells, brain, nerves and hormonal system. It provides the body with the very nutrients most capable of building youth and vitality - monatomic elements (single atom elements of gold, silver, platinum, rhodium, iridium, etc.).

What you experience is simply a relaxing, luxurious bath. Enjoy the soothing of sore muscles, the easing of the days stress, the calming of restless muscles and an active mind. Feel nourished and cleansed at deep levels. Enjoy deep, restful sleep following a **Sacred Bath**.

Just add the entire contents of one packet to your bath water and stir. The water will soon turn dark brown due to the presence of the humics in the water. Soak for 30-45 minutes or as long as desired.

Recommended bath frequency for regular detox maintenance: 1 bath per week.

Therapeutic frequency can be as much as 1-2 baths per day during a crisis, or 2-7 times per week until desired health goals have been achieved.

Septic and City Drains

The **Sacred Bath** ingredients are not only safe for your septic and for city drains as well, they are exceptionally beneficial. Humics help break down debris and convert solid waste. Pyrophyllite absorbs chemical toxins and encourages beneficial bacterial growth while reducing fungal growth.

(Optional) You may, if you wish, toss the spent water onto your garden, house plants and lawn. Makes an excellent plant growth enhancer due to the beneficial biology it promotes in the soil and nutrients it provides to the plants.

Foot Bath

Works excellent as a **Foot Bath** as well. Just use 2 tablespoons of the **Sacred Bath** and soak your tired feet for 20-40 minutes.

As an Addition to a Clay Poultice

To increase the power of detoxification and speed healing, add one Sacred Bath packet (or 1/3 cup of Sacred Bath Bulk Powder) to every pound of Sacred Clay. Mix to a thick paste and spread the clay mixture onto the desired areas. Keep moist with a spritzer bottle or a slightly damp cloth or gauze (use a throw away cloth since the clay may discolor the cloth). Wrap in plastic or Saran Wrap to hold together and to keep moisture in. Leave on for as long as desired, 20 minutes to overnight. Longer tends to produce more profound results.
